Dear Fellow Nurseryman:

Spring planting time is just around the corner. Why wait until the last minute to place your orders for lining out stock, only to find many items not available? From this handy order form, you can place your order for Naugher's top quality field grown lining out stock—we'll be happy to give immediate delivery or reserve your requirements for later delivery.

Naugher's lining out stock is produced in ideal climatic conditions—a long growing season—a cold winter to acclimatize our stock for any area. Our shipping season usually extends through April 15th. Many of you have been amazed to learn that we are located in Northern Alabama in the foothills of the Cumberland mountains; thus a strategic location for the production and marketing of hardy, freshly dug lining out stock.

Naugher's years of experience in the liner field has proved beyond a shadow of a doubt that you want freshly dug stock; consequently, Naugher's storage is in the field. Generally, less than twenty-four hours elapses from the time shipping instructions are received until top quality lining out stock is enroute to your nursery. Naugher's 6-12" grade enables us to completely eliminate any storage—it assures you of freshly dug stock, and why should you pay from ten to thirty dollars a thousand more for tops that you plan to prune off before planting? Roots? Of course, a tremendous root system, thanks to Naugher's rootpruning and irrigation. You can rest assured that Naugher's experience and tradition of quality characterizes the materials we offer, resulting in better stands, faster finishing, and greater profits for you.

Ask your neighbor—he's planted Naugher's field grown liners. Why not try Naugher's hardy liners yourself—you'll be glad you did, and we feel sure that you, like so many, many others, will be saying—**YOU'LL LIKE NAUGHER'S QUALITY.**

Thank you.
